

AMA's Virtual Meeting Package

Turn-key events from your home office,
corporate office or any location

AMA's Virtual Meeting Packages allow you to broadcast globally to 300+ participants allowing you to connect with the world from a single location.

Never streamed before? No problem. We'll provide you with the equipment, support, and technical expertise to help you deliver a solid performance.

AMA's Livestream Team will provide you with a Virtual Meeting Assessment to identify your specific needs to ensure the production of a successful virtual event. A Web Streaming Bundle Kit will be sent to you and includes the equipment and instructions for you to stream like a pro. This package will also give you access to one of our Livestream Team members to act as a producer to provide technical support in real time during your event.

Virtual Meeting Assessment:

- ▶ Consult with our Livestream Team to assess your virtual and technical needs.
- ▶ Our team will evaluate your hardware, software, audio quality, video quality and internet speed.
- ▶ Technical assessment will also include a 30-minute tutorial session.

Our Livestream Team will provide you with two virtual 15-minute rehearsal "broadcast tests" prior to your event. Additionally, our Livestream Team will monitor your event and will be available "silently" during the event to provide you with any technical support that you may need.
